

Francis J. Curry National Tuberculosis Center
Nurse-to-Nurse Training Program
Application
2010

The Francis J. Curry National Tuberculosis Center (CNTC) introduced the Nurse-to-Nurse training program in 2007 in an effort to directly and personally bring tuberculosis training to nurses working in the field. Each training session will be 4-8 hours in length, for groups of 8-30 and the topic areas for training will be jointly determined by the hosting jurisdiction and CNTC's Nurse Consultant. Partnership with local faculty is encouraged, particularly for full-day trainings. We are now accepting applications from jurisdictions within our Western Region service area for a limited number of Nurse-to-Nurse trainings to be scheduled in 2010.

NOTE: All 2009 Nurse-to-Nurse trainings have been scheduled. Apply now for a Nurse-to-Nurse training in 2010.

Role of the hosting jurisdiction:

- Identify and secure site where training will take place
- Assist in determining training agenda, based on local needs
- Market and publicize training to target audience
- Provide A/V and other technical support
- Assist in recruitment of local TB program staff to serve as course faculty
- If possible, provide coffee and/or refreshments on day of training

Role of Francis J. Curry National Tuberculosis Center:

- Assist in development of training agenda
- Manage registration of participants
- Provide continuing nursing education contact hours (and certificates) for all eligible participants
- Create brochure (electronic and hard copy) to market training to appropriate learners
- Create/revise slide presentations for the training and supply participants with a hard copy
- Provide core faculty and assist in securing local faculty, as needed
- Evaluate training and provide summary of feedback to hosting jurisdiction

To apply:

1. Provide a written statement indicating why you are interested in hosting a Nurse-to-Nurse training in your jurisdiction.
2. Include background information/data on TB training needs of the nurses in your locale.
3. Identify specific topic(s) of interest (e.g., case management, identification and treatment of latent TB infection, TB outbreak management, etc.).
4. Provide several possible training dates (month/year) that would work for you.

Administrative details:

1. Application for Nurse-to-Nurse training to be conducted in 2010 is due no later than September 1, 2009.
2. After all applications are received they will be reviewed by CNTC's Health Education Committee. All applicants will be informed of their application status no later than November 30, 2009.
